Press Release

An emergency meeting of Hazara Progressive alliance was held today 18th June 2012 in London to discuss the exacerbated situation of Quetta Pakistan.

The convenor and member of central committee executive strongly condemned the barbaric attack on the BUITEMS University bus on Samangly Road Quetta which resulted in loss of 5 innocent lives and injured 50 innocent BUITEMS students.

Hazara Progressive Alliance considers this act of barbarism a sequence of on going genocide of Hazara which is being continued in the last 12 years. Hazara Progressive Alliance declared the incident a mere failure of Federal and Provincial government and security agencies. Under the nose of security agencies, more than seven hundred Hazara professionals, students and labourers have been killed and thousands others have been seriously maimed and injured. Thousands of Hazara populace are forced to abandon Pakistan and the whole population is under siege of terror.

Despite brining the issue on the table with the government through series of protests in Quetta, Islamabad and around the world in front of Pakistani High Commissioners and handing over memorandums nothing seems to have changed. Not even a single person has been brought to justice yet.

Despite raising the issue in Supreme Court of Pakistan in which Provincial Chief Minister, IG Frontier Corpse, and IG Balochistan Police force attended in person and pledge to provide security to the people of Quetta; the situation has exacerbated, which clearly bears a message that the terrorist organizations are sponsored and protected by influential persons in government and security agencies. These terrorist organizations are used as secret agency's proxies in the region to suppress the democratic tendencies and ignite ethnic and sectarian disharmony in the province among the brotherly nations.

HPA has called upon the progressive and liberal forces in Quetta Pakistan to unite and fight against conspiracy which will turn Quetta in to a battle field and save the city form further sufferings.

HPA has called upon the Hazara Diasporas to start offensive public relations and write to their area MPs/ Senators about the genocide of their people.

HPA has also called upon the Hazara Diasporas to come together in the form of conferences and should discuss the issue and devise a policy guide line for future to address the issue.
